Seriousness and Professionalism

The Target is Clear – Purchase or Sale!

Sale

:

The success lies in the transaction. For this, the more professional and quicker the transaction is being carried out, the higher will be the achievable selling price.

The reasons for a sale can be complex:

- + Age-related succession plan
- + Abandonment of the business field
- + Buy-out of non-strategical business units
- + Concentration on the key business
- + Concentration on the core competencies
- + Cash-in on profits
- + Or even a negative buy-out

The path is clearly defined:

- + *Teaser*
- + *Longlist – first selection procedure*
- + *Shortlist – selection of the target companies*
- + *Confidentiality agreement*
- + *Business description*

- + *Management presentation*
- + *Visit of the plant*
- + *Tender procedure*
- + *Due Diligence*
- + *Data room*
- + *Offer finalizing*
- + *Offeror's selection*
- + *Form of the contract*
- + *Contractual closing*
- + *Transaction registration at the authorities*
- + *Approval of the transaction by the authorities*
- + *Transaction*
- + *Closing*
