

New Winner in Harbour Report

(Automobilwoche, 20th edition, 24th September 2007)

Content:

The survey documents large differences in the productivity of big European passenger car plants. In compact cars, Nissan, Ford and Toyota are on leading positions in Germany and England. In case of small cars, there are Ford, Nissan and Citroen in Germany, England and France.

The KW-Consulting-Group helps you to equip your company in a way so that you will count Europe-widely and also globally to the leaders of your segment.
